

Electronic Payment (ePurse) Package

Introduction

On behalf of Members, SAM has contracted with sQuid (www.squidcard.com) to supply an FCA-regulated eMoney ePurse Scheme. The ePurse Scheme covers the sQuid Transit Pay-As-You-Go (PAYG) ePurse, with a Transport Settlement System, associated customer and client support, system maintenance and technical support.

sQuid also provides, when requested, card design, marketing support, and portal design/update services. The Transit PAYG ePurse is used via the [sQuidcard.com](http://www.squidcard.com) secure portal application, where the customer registers their card. Once registered and the sQuid account is set up, the customer can add and top up value and view transactions.

Services Provided within the AMS-HOPS Package

The services provided by the SAM Managed Service under the Electronic Payment (ePurse) Package are based upon delivering a sQuid scheme to the specification as defined within the National Procurement Framework. The Electronic Payment (ePurse) Package includes the following services.

- Access to the SAM Order ePurse Proforma.
- Supplier management.
- Assistance with business case preparation.
- Product testing.
- Number range management.
- Artwork provision (at additional cost).
- Artwork advice.
- Card format and apportionment advice.
- Access to SAM's own low-cost sQuid-based card platform - 'Love the Bus' which provides low-cost access to ePurse payments for any SAM Operator Member.
